SUMMARY

Architectural designer with six years of practice across residential, commercial, hospitality and interior projects, completing an M.S. in Project Management at Northeastern University in December 2026. Experienced end to end: concept design, construction documents, consultant coordination and site supervision, plus New York experience designing accessory dwelling units for the city's pre-approved plan library, delivering a full residential interior design package, preparing site-specific safety plans, and running a DOB-approved safety training school where sales grew 36%.

Eligible for 12 months of F-1 post-completion OPT work authorization; no employer sponsorship required during that period.

EDUCATION

M.S. Project Management | Northeastern University, Boston, MA

Expected Dec 2026

B.Arch, Bachelor of Architecture | North South University, Dhaka, Bangladesh

2019

EXPERIENCE

Project Management Coordinator | Quantum Design & Safety LLC, New York, NY

Jan 2026 – Jun 2026

- Designed three detached accessory dwelling units (643-776 sq ft) for submission to New York City's pre-approved ADU plan library, producing floor plans, elevations, sections, electrical and plumbing layouts, door, window and area schedules, zoning analysis and presentation boards for each model.
- Specified all three models to exceed NYCECC insulation minimums, with heat-pump heating and U-0.27 / SHGC-0.4 glazing compatible with Passive House and ENERGY STAR, plus ADA-ready ramp locations and 60-minute fire-rated assemblies.
- Designed the interiors for a proposed single-family residence in Newburgh, NY and produced the complete 30-sheet interior design set — furniture, lighting, HVAC and curtain-rail layouts, tile setting-out and joinery elevations — plus renders and bill-of-quantities schedules used to secure client sign-off.
- Developed site-specific safety plans and egress blueprints for [number] active New York City construction projects, coordinating layouts against NYC Department of Buildings requirements.
- Ran the firm's affiliated site safety school, 1A Accredited Bilingual Safety Training, a NYC DOB-approved SST course provider: managed scheduling and operations and issued SST Worker cards, Supervisor cards and Worker Wallets under Local Law 196.
- Grew the school's sales by 36% by adding in-person classes at the Kew Gardens premises, coordinating instructor availability to fill the calendar, and running online and offline promotional campaigns.

Architect | ZED – Architecture & Construction, Dhaka, Bangladesh

Sep 2023 – Dec 2024

- Led design and documentation of a 6.8-acre resort masterplan — hotel, three-storey restaurant and conference hall, 20 rentable cottages, amphitheatre and owner's villa — from concept through construction drawings; now in construction.
- Directed a team of [number] architects and draftspersons across [number] concurrent projects, running client meetings, design reviews and approval milestones.
- Prepared bills of quantities and reviewed contractor submittals, cutting material waste / cost by [%] through value-engineering of [finishes, structure, MEP layouts].
- Supervised construction on site, resolving field conflicts and issuing revised drawings to keep [number] projects on schedule.

Architect | Cornerstone Design Studio, Dhaka, Bangladesh

Jun 2022 – Jul 2023

- Produced full architectural and interior construction document sets for residential and commercial projects, including a completed duplex apartment fit-out in Uttara, Dhaka, coordinating with structural and MEP consultants to resolve clashes before issue for construction.
- Conducted site inspections against approved drawings and trained [number] junior staff on CAD standards and detailing.

Architect | Dreero.aec – Architecture, Engineering & Construction, Dhaka, Bangladesh

Nov 2020 – May 2022

- Delivered interior projects from concept through handover — construction documents, 3D visualizations and material specifications — and prepared planning and permitting submissions to [Rajuk / local authority].

SKILLS

Software: AutoCAD, Revit, SketchUp, Rhinoceros, Lumion, V-Ray, Adobe Illustrator, Photoshop, InDesign

Project management: Microsoft Project, scheduling, budgeting, bill of quantities, resource planning, contractor and instructor coordination, business development

Documentation: Permit and ADU drawing sets, interior design sets, zoning analysis, NYC DOB site safety plans and egress documentation

Languages: English (fluent), Bengali (native), Hindi (conversational)
